

I am writing in support of K-Love 90.7 FM. The proposed new broadcast service will jepordize this radio station. Frankly with all of the garbage that is on the airwaves these days, K-Love is the only positive radio station to turn on in my area. Not only does the station play uplifting music but they provide information on what is going on in my community that I would not hear anywhere else. The station also provides phone support for people who are in need of extra encouragement. Please do not allow the LPFM stations to take priority over K-Love. Thank you.
